TRI-COUNCIL GRADUATE SCHOLARSHIPS AND WHAT SUPERVISORS NEED TO KNOW

A key part to building a successful research program is supporting the caliber of your Highly Qualified Personnel (HQP). Tri-Council Scholarships are an important indicator of that caliber. Scholarships also trigger amazing opportunities for your HQP in the future and strengthen your own research reputation. The money doesn't hurt either! Join us to learn tips from successful supervisors who have also sat on national adjudication committees, on how to help your HQP crack Tri-Council Scholarships.

September 18, 2020 from 2:30pm - 4:00pm

OVERVIEW OF FINANCE AT YORK

Too many researchers spend their time on administrative challenges they didn't need to be tripped up about. Come to this workshop and work directly with unit experts to understand the processes and policies related to your research funding, including the Concur online reimbursement system, Travel and Purchasing credit cards and Tri-Council policies. Guaranteed that 90 minutes now will save hours later!

September 22, 2020 from 1:00pm-2:30pm

ROYAL SOCIETY OF CANADA FELLOWSHIP AND MEMBERSHIP

Preparing a nomination for the Royal Society of Canada? Seeking some support in fine tuning your nomination? Join us for this RSC Nomination Workshop where members of the Strategic and Institutional Research Initiative (SIRI) team and active Fellows and Members will share tips and hints in making your nomination stand out. Although all faculty are welcome, this workshop is intended to support nominations for the December 1st, 2020 deadline, as it will be focused on the details of finalizing the nominations. This includes faculty members who are already engaged in the Faculty level process or faculty members who have not engaged in the Faculty level process but who have made significant progress on the application on their own. For example, faculty members who already have a RSC nominator, draft statement, referees identified. Research Commons will also provide another, more general workshop on Royal Society of Canada nominations in the Spring.

October 13, 2020 from 10:00am - 11:30am

ENHANCING THE VISIBILITY OF YOUR RESEARCH FOR GREATER RECOGNITION

Being a successful researcher today requires that both you and your work are seen! Are you seeking to enhance the visibility of your scholarship? This practical workshop will focus on strategies and techniques to increase the discoverability of your scholarship on the web. Through this hands-on session, participants will be able to: 1) Create and learn about different researcher IDs such as ORCID, Scopus ID and Web of Science Researcher ID; 2) Create and learn about researcher profiles that can be built on such platforms as Google Scholar, ResearchGate, Mendeley and Wikidata; 3) Learn how to deposit your publications in open access repositories such as YorkSpace in order to increase the reach of your research.

November 11, 2020 from 2:00pm - 3:30pm

BUILDING WINNING LARGE-SCALE GRANTS

With interdisciplinary research proposals becoming ever more complex and competitive, it is increasingly important to undertake proper planning in advance of funding calls. With the support of the Strategic and Institutional Research Initiatives (SIRI) team, this session provides participants with an overview of how best to select, apply for, and manage large scale multi-disciplinary/multi-organizational grants. We will examine two special cases in proposal development – the Network Centres of Excellence (NCE) and the Canada First Research Excellence Fund (CFREF) – with discussions led by a panel of successful grantees who will share their best practice strategies. Topics covered will include team facilitation, budget development, writing and editing, and project management.

December 9, 2020 from 2:00pm - 4:00pm

GRANT CLINIC 2021

The Research Commons Grant Clinic runs in the summer months of May to August and provides a selected group of York University researchers a comprehensive package of tailored supports to develop applications for Canada's core operating grant competitions: SSHRC Insight, NSERC Discovery, and CIHR Projects. The goal of the Grant Clinic is to support researchers in developing competitive applications for the Fall rush competitions. The selected researchers will be enrolled in a series of workshops, one-on-one tailored pedagogy and external peer reviews for their grant applications.

Details on Grant Clinic 2021 will be released later this year with applications due on January 31, 2021. Stay tuned!
